GATOR BASE™

Use Gator Base to Build Seat Walls

Gator Base can be used to build seat walls and is designed for comfortable seating in gardens, patios, pool decks, pathways or around a fire pit.

The Gator Base Advantages

- ✓ Jobs are completed 20% faster than traditional way
- ✓ Reduce needless excavation
- ✓ Reduces the effects of freeze and thaw cycles
- ✓ Less destruction on property during installation phase
- ✓ Gator Base is made of durable engineered material and will last forever

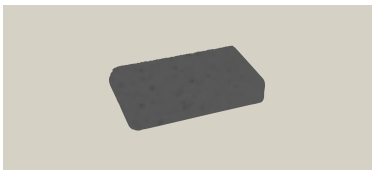
Pavers

Whether it is a large or small project, Barkman Pavers offer a wide selection of options for your patio, walkway, driveway or parking space. Far from just looks, our pavers offer quality assurance through testing and the use of superior grade materials throughout the manufacturing process. We believe we have a paver for any aspiring design.

Bullnose

DESCRIPTION	UNIT					PALLET				PRICE
	SIZE (L X W X H)		FACE AREA		WEIGHT	NO. OF UNITS	TOTAL LENGTH		WEIGHT	
	MM	IN	M2	SQ FT	LB		M	LNFT	LB	
Roman (Tumbled)	305 x 152 x 60	12 x 6 x 2.36	0.04	0.5	13	144	21.95	72	1872	
Smooth	305 x 152 x 60	12 x 6 x 2.36	0.04	0.5	13	144	21.95	72	1872	

COLOURS	ITEM NO. SMOOTH	ITEM NO. ROMAN
Charcoal	102691	113727



Notes: Product available to order in full pallets only. A $25.00 returnable pallet fee will be charged to any bundle of Smooth and Roman Bullnose pavers. Special order minimum quantity is 1000 sq ft. Contact your local Barkman sales representative for further details. When installing this product, make sure to include a 2-5mm gap between each unit. This will provide enough room for the jointing sand and make installation easier.

Notes: Holland pavers can be installed in a running bond or herringbone pattern with border options that can be combined with other pavers. The patterns listed below can also be used on our 8CM Holland paver. To calculate soldier course, multiply lineal footage by 0.7; this will indicate the square footage of Holland required. To calculate sailor course, multiply lineal footage by 0.35, this will indicate the square footage of Holland required. A $25.00 returnable pallet fee will be charged to any bundle of Holland. Contact your local Barkman sales representative for further details. Special order minimum quantity is 1000 sq ft per size.

Notes: Roman pavers are rectangular and come in four sizes on separate pallets. They can be installed using one size only in a running bond or herringbone pattern, or they can be installed by mixing the sizes to create a random pattern. A $25.00 returnable pallet fee will be charged to any bundle of Roman. Contact your local Barkman sales representative for further details. Special order minimum quantity is 1000 sq ft per size. When installing this product, make sure to include a 2-5mm gap between each unit. This will provide enough room for the jointing sand and make installation easier.

Notes: Each bundle contains 76 sq. ft. between the eight sizes. Recommended to use **Paver Saver Mat (103164)** between the plate compactor and surface. Boardwalk is compatible with some machine paver laying systems. Boardwalk can also be installed as a permeable paver. Available to order in full pallets only. Recommended to use Polybind Complete G2 Polymeric Sand for commercial applications if not using for permeable. A $25.00 returnable pallet fee will be charged to any bundle of Boardwalk. Special order minimum quantity is 1000 sq ft. Contact your local Barkman sales representative for further details. Product designed to be installed in a running bond pattern.

Paver Material Requirements

1) EXCAVATION DEPTH

MATERIAL	FOR PEDESTRIAN TRAFFIC		FOR LIGHT VEHICULAR TRAFFIC	
	MM	IN	MM	IN
Pavers	60	2.36	60	2.36
Sand	25.4	1	25.4	1
Gravel Base	102–152	4–6	203–305	8–12
Total Excavation Depth	178–229	7–9	279–381	11–15

Gravel base: Use minimum depths in a well-drained area or undisturbed soil. Use maximum depths in poorly drained area or distributed soil. 0.5" less is required to compensate compacting of pavers. If soil is saturated more than 50% of the time, filter fabric and extra base should be used.

When installing thicker pavers add equivalent total excavation depth. Note that not all 60mm pavers are suitable for vehicular traffic (see page 43).

2) BASE MATERIAL

Granular Base

WIDTH		LENGTH		BASE DEPTH				MATERIAL REQUIRED
m	x	m	x	m ÷ 0.3048	÷	0.6858	=	m^3
ft	x	ft	x	ft ÷ 12	÷	27	=	cu yd

Bedding Sand

WIDTH		LENGTH				MATERIAL REQUIRED
m	x	m	x	0.0255	=	m^3
ft	x	ft	x	0.0031	=	cu yd

3) EDGING

Edging

LENGTH OF EDGE				SNAP EDGE

Cedar Brown	114278	114280	114282
Weathered Grey	114277	114279	114281

Notes: Available to order in full pallets. Bridgewood should incorporate a 1/8" to 1/4" (3mm to 6mm) gap between each plank. Plank thicknesses will vary; this is intentional to replicate real planks. Can be laid with all three sizes, or a selection of one or two at any size in a running bond pattern. To achieve the most desired look, Bridgewood is intended to be laid in all three sizes with a 1:1:1 ratio. To calculate number of pieces, Area / 5.17 = how many pieces required. A $25.00 returnable pallet fee will be charged to any bundle of Bridgewood.

Charcoal	103671	103745	103865
Sierra Grey	103689	103749	103874

Notes: To calculate pieces required for standard units, multiply the length of wall, in feet, by 1.5 for the number of pieces per row. Then multiply number of rows for amount of standard pieces. To calculate coping pieces required, multiply the length of wall, in feet, by 1.6 for amount of coping pieces required. 2 out of 12 coping pieces is an end piece. Each bundle of 60 standard has 60 tapered units (30 left and 30 right). Use all lefts and rights on alternate rows. Minimum inside diameter of 192". For coping pieces, half the bundle will have a radius on one side, and the other half will have the opposite radius. A $25.00 returnable pallet fee will be charged to any bundle of Pisa2.

Base

It's What's Underneath that Counts

Compacted Native Soil Subgrade

Preparation of the native soil subgrade is critical to the performance of an interlocking concrete pavement. Large rocks, roots, organic material and all other debris should be removed from the native soil subgrade and in turn be replaced with the crushed aggregate material that will be used to construct the compacted aggregate base. From there, the soil subgrade should be compacted to a minimum 98% standard Proctor density, with modified Proctor density being the preferred standard to use for vehicular applications. The overall success of an interlocking concrete pavement begins with a native soil subgrade that has been prepared and compacted as per the standards and guidelines set out by the Interlocking Concrete Pavement Institute.

Compacted Aggregate Base Layer

The functionality, lifespan and success of an interlocking concrete pavement application is directly related to the compacted aggregate base installed beneath it. Each unique project requires that a proper base design and materials be determined based upon several different variables. Contact your local Barkman representative for more information.

Screeded Bedding Layer

Like the compacted aggregate base, the screeded bedding layer plays a vital role in the overall performance of an interlocking concrete pavement application. The Interlocking Concrete Pavement Institute states that precast concrete pavers should be installed on top of an uncompacted 25 mm layer of concrete sand (CSA A23.1). For more information on what your commercial project will require, you can get in touch with your local Barkman representative.

The ICPI technical specifications are also great resources for application information. (www.icpi.org)

Landscape Kits

Landscape kits offer a cost effective way to turn any backyard into something special without custom concrete work. In an afternoon or less, you could build a complete kit from our collection of bars, pillars, fire pits and our Quarry Stone Outdoor Kitchens. Modular in design and timeless in their appeal, Barkman kits offer the easy choice to elevate your backyard ambitions.

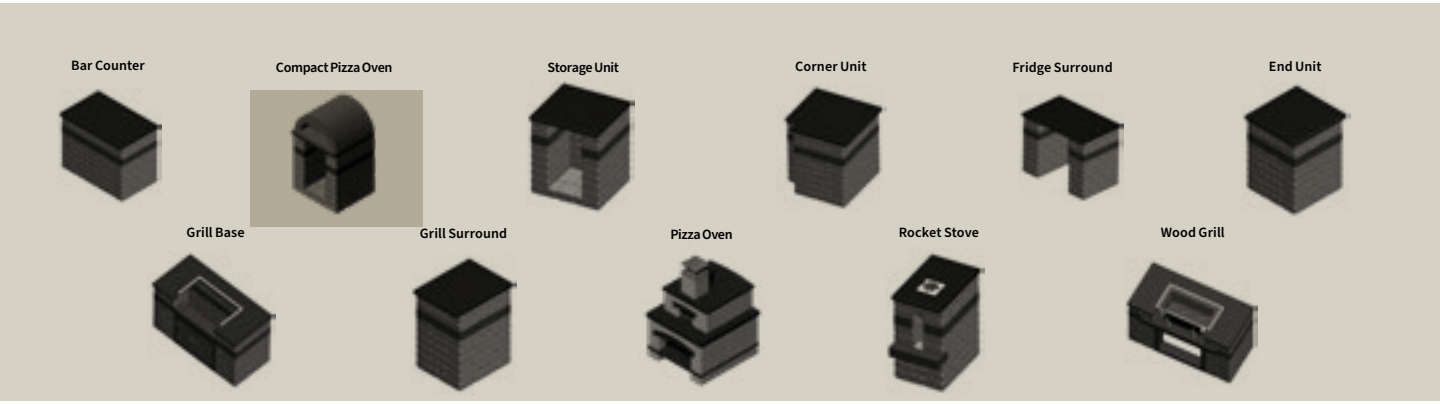
COLOURS

Sierra Grey/Charcoal Accent



Notes: Quarry Stone Outdoor Kitchen Kits, formely, Harvest Grove Kitchen Kits come with Polished Granular Finish Countertop which have an exposed aggregate and smooth finish. Colours may vary between various components. When ordering the Extended Countertop, determine Left or Right unit by imagining standing behind the bar counter looking out towards the extended countertop section. Example: looking to the right side would entail ordering a right unit Extended Countertop. The Quarry Stone Compact Pizza Oven is made up of the Nonno Peppe Pizza Oven unit and the Quarry Stone Storage Unit that acts as a wood storage. Outdoor kitchen kits produced prior to 2020 contain a wetcast band, which makes these kits 1" shorter than our current ones. These kits won't line up with our latest Quarry Stone Outdoor due to the height difference.

Notes: 60" and 72" platform available upon request. Contact Barkman for quote. Fractional widths are available; these will be charged to the next foot. It is manufactured in three pieces. The steps and platform are in one section and the sides are separate. Surface of the steps, platform and the sides of brackets are a “broom finish”. Each riser is 7.25" high, first riser is 10.25", tread depth is 11". Holes will need to be drilled to attach rails (fasteners not included). These steps are ordered on a custom basis for Winnipeg only. Angled platforms available. Subject to truck accessibility.

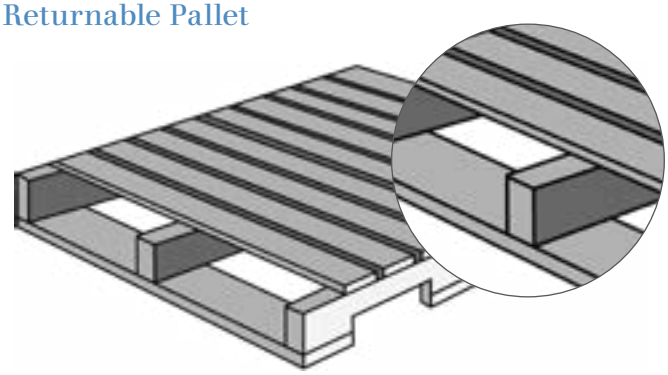
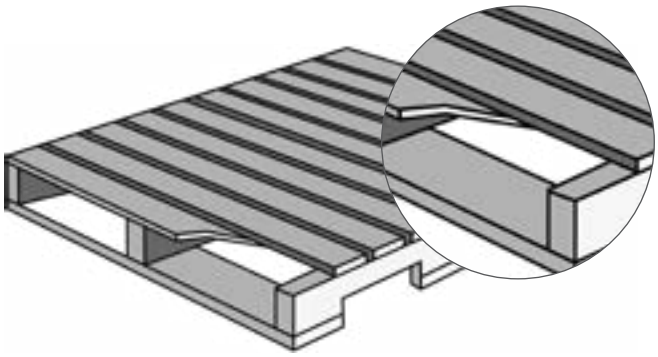
A $25.00 returnable pallet fee will be charged on these units except for 60" well cribbing units which come in custom pallets. Well cribbing and Sump Pump pits are special orders.

Pallet Return Guide

Returnable Pallet

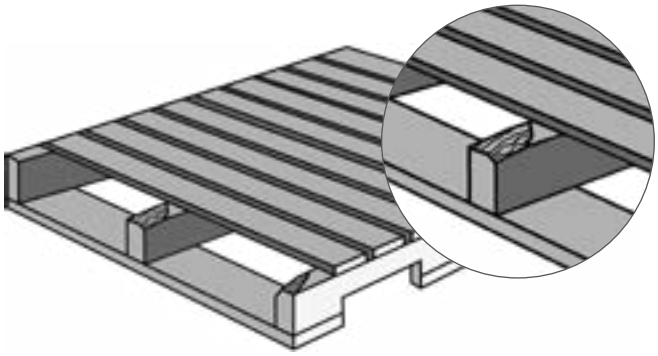


✔ Missing board, but stringers are still intact.

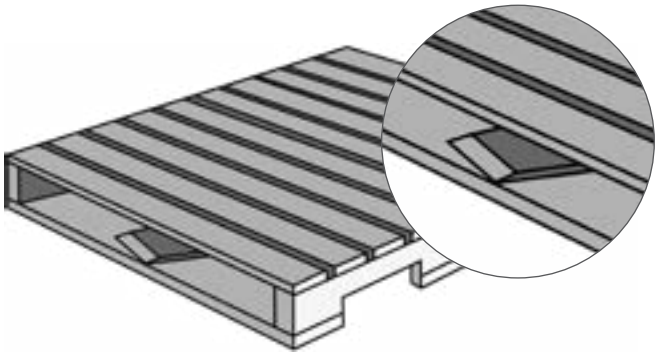


✔ Broken board, but stringers are intact.

Unreturnable Pallet



✖ Stringers have broken ends.



✖ Stringer is broken.

Notes: Only pallets with "Barkman" painted on the side will be received by Barkman. Other brand pallets or pallets without the "Barkman" paint will not be received and no credit will be issued. Barkman will only charge for pallets with the "Barkman" name on the side. Barkman will receive and credit in full returnable Barkman pallets that are in acceptable condition. Barkman works diligently to ensure no broken pallets leave our yard to your location. Should an "unacceptable" pallet be brought to your yard by delivery, please document it before being unloaded and inform Barkman immediately. This will ensure Barkman does not improperly invoice you for faulty product. Contact your nearest drop off yard before drop off to ensure the best possible service.

Important Information

The Environment

At Barkman we are committed to being good stewards of the planet. Not only are our products excellent choices for people concerned about the environment, we employ "environmental best practices" throughout our manufacturing and operations whenever possible.

Barkman Warranty

Barkman Concrete warrants the structural integrity of our paving stone, slabs and retaining wall units. For homeowners, we offer a transferable lifetime warranty, where we will replace or repair at our option, without charge any defective product installed and maintained to our guidelines under normal use.

For more information on this and our warranty policy on other product lines, please go to our website at www.barkmanconcrete.com/about/warranty.

Quality and Support Pledge

All Barkman products are guaranteed to meet or exceed the Canadian Standards Association (CSA) standards. We use only superior grade materials and employ stringent quality control measures throughout the manufacturing process to ensure a quality product every time. We also support our products with one of the industry's largest network of dealers and contractors. When you need us, we'll be there to help.

Important – actual colours may vary. Every effort has been made to ensure accuracy in the colour representations found in our product catalogues. However, due to the natural characteristics of concrete, the manufacturing process and print reproduction, actual colours in the final product may vary from that shown.

How to Order

Ordering Barkman products is as simple as calling or visiting one of our many dealers or contractors. For our convenient dealer locator please visit our website. Kindly be ready to specify product style and colour choice if required.

If working directly with a contractor, please be sure to specify Barkman products to ensure Barkman quality. For Winnipeg customers requiring steps, contact our Winnipeg office directly.

Installation and Project Estimation Support

Barkman provides easy-to-read installation guides that contain simple step-by-step instructions to help make installation a snap. Visit BarkmanConcrete.com to download a copy. Our website and Barkman App also features a handy product calculator that allows you to easily calculate the quantity of Barkman material and accessories.
